DETAILED ACTION

Claims 24-26, 31-34 are at issue and are present for examination.

Applicants' arguments filed on 5/3/2004, with respect to the rejoinder of the method claims 32-34, have been fully considered and are deemed not to be persuasive.

Rejoinder of method claims

As previously stated, applicants comments with respect to the rejoinder of claims 32-34 are also acknowledged, however as discussed previously, the methods of claims 32-34 are not subject to rejoinder as they do not recite methods of using the allowable product but instead methods of using fragments of the allowable product. The referred to claims 32-34 are not method of use of the allowable product, claims 24-26 and 31. The scope of those polynucleotides used by the methods of claims 32-34 is greater than the scope of those claims deemed allowable (i.e. claims 24-26 and 31) and thus claims 32-34 are not subject to rejoinder practice.

Allowable Subject Matter

Claims 24-26 and 31 are allowed.

This application is in condition for allowance except for the following formal matters:

Applicants are requested to cancel claims 32-34.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **ONE MONTHS** from the mailing date of this letter.

This application is in condition for allowance except for the presence of claims 32-34 to an invention non-elected with traverse in paper of 2/6/2003. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
